

JUDGE US BY THE COMPANY WE KEEP

has more experience with different driver types than any other generator manufacturer in the world. Our success in the field of generation can be attributed to our ability to meet the demanding interface requirements of turbine and engine manufacturers, coupled with competitive prices and keen deliveries.

With GAS TURBINE types:

ABB Type 11	General Electric Frame 5	GE - Pignone PGT10	Solar Mars
ABB GT10	General Electric Frame 6	Mitsubishi MF111	Solar Titan
ABB GT35	General Electric Frame 7	Orenda OT-3	Westinghouse W191
Allison 501	General Electric Frame 9	Orenda OT-2100	Westinghouse W251
Allison 571	General Electric LM1600	Pratt & Whitney FT4	Westinghouse W501
D-R Kongsberg KG2	General Electric LM2500	Pratt & Whitney FT8	Westinghouse W701
EGT Ruston TA1750	General Electric LM2500+	Rolls Royce Avon	Westinghouse/Rolls WR21
EGT Ruston TA2500	General Electric LM5000	Rolls Royce Spey	
EGT Ruston TB5000	General Electric LM6000	Rolls Royce Olympus	
EGT Ruston Tornado	GE - Pignone PGT2	Rolls Royce RB211	
General Electric Frame 3	GE - Pignone PGT5	Rolls Royce Trent	

STEAM TURBINES made by:

ABB	GEC Alsthom	Toshiba
AEG Kanis	General Electric Company (USA)	Tuthill - Murray Turbo
RR - W H Allen	GE - Pignone	Peter Brotherhood
Ljungstrom (radial flow)	Hitachi	Shin Nippon
Daniel Adamson	KKK	Siemens
Dresser Rand - Terry	Mannesmann Demag	Westinghouse
Elliott Turbomachinery	Mitsubishi Heavy Industries	Worthington

From MarelliMotori models starting at 10kW, through the Brush salient pole ranges up to 50MW, to the Brush "DAX" turbo series rated up to 200 MW, we have a generator to match every driver. So the next time you need electric generators, specify our machines - You will be in good company !
